

HYDREIGHT

Feature Release:
Booking QR Code / Link

What is a QR Code?

A QR code allows the Customer to scan a code with their mobile device that directs them to a website. The link or QR code launches the businesses booking page in a new browser tab.

How does this help you?

BUSINESS ADMINS

- Businesses can have their own booking link and QR code which Admin can share with clients
- It will allow them to book directly with your service providers.

SERVICE PROVIDER'S

- They can have their own booking link and QR code
- They can share either with clients, to allow them book directly with service provider.

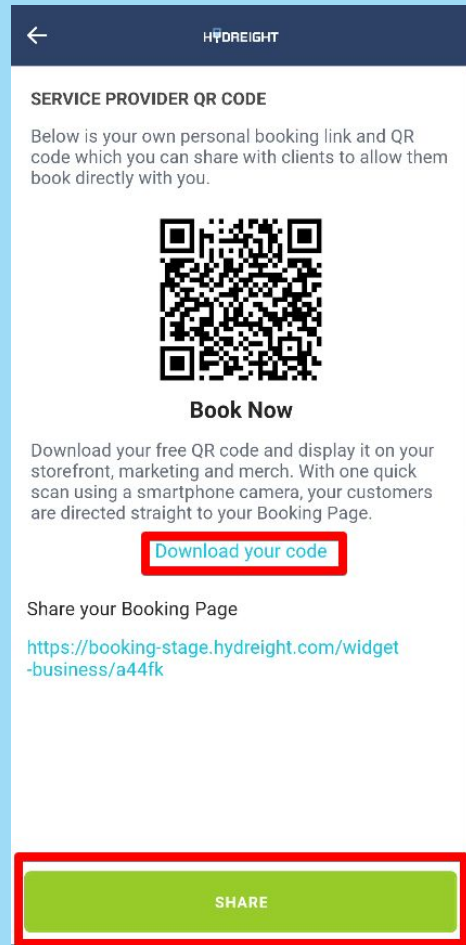

How to Access Your QR Code/ Booking Link

Service Provider

1. Login to app as Service Provider (SP).
2. From menu go to **Manage Account**.
3. Click on **Service Provider QR Code** > **Download your code** QR Share

Business Admin

1. Login to app as Business Admin (BP).
2. From menu go to **Business**.
3. Click on **Business QR Code** > **Download your code** QR Share

Use Cases

Download QR Code

- This feature is to be used outside the app. (Print Media)
- It is NOT used to download the Hydreight app

Share Link

- Access via the web
- Share with contacts

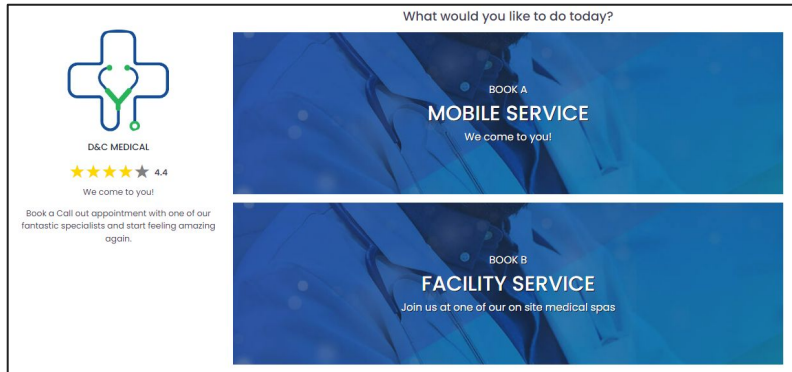

When a customer uses the link or scans the QR code, it takes them outside of the app to either the Business menu or directly to the Service Providers calendar.

A screenshot of the Hydreight app interface. At the top, there is a dark blue header with a back arrow on the left and the word "HYDREIGHT" in white on the right. Below the header, the text "SERVICE PROVIDER QR CODE" is displayed. Underneath, a paragraph explains that the user has a personal booking link and QR code to share with clients. A large QR code is centered on the screen. Below the QR code, the text "Book Now" is shown. A paragraph follows, describing how to use the QR code for marketing and how it directs customers to the booking page. A red-bordered button labeled "Download your code" is highlighted. Below this, the text "Share your Booking Page" is shown, followed by a blue URL: "https://booking-stage.hydreight.com/widget-business/a44fk". At the bottom of the screen, a large green button with the word "SHARE" in white is highlighted with a red border.

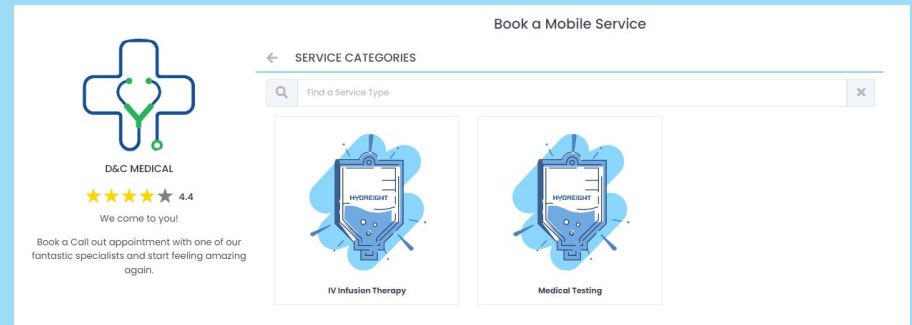

Step 1: Booking Choice

- If the business is set to Booking Types “Callout” and “Facility”, then a choice page will be open.
- Customer can select a Booking Type and that will take them to Service Categories page
- If the business only has one Booking Type, then it will take them to that Service Categories page

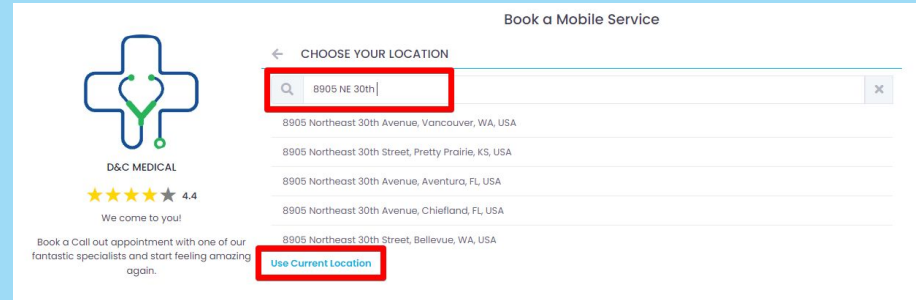

Step 2: Categories

- User will click on the Service Category they want
- Ex: IV Infusion Therapy; Telemedicine

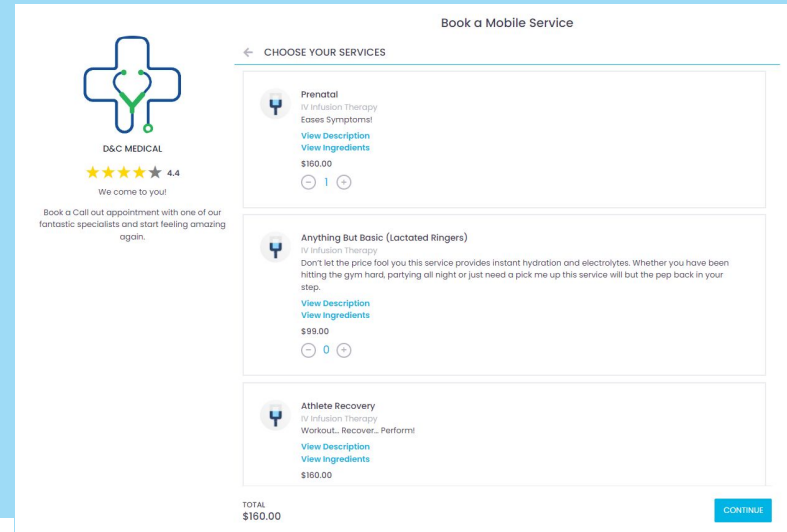

Step 3: Location

- Customer can either enter their location or they can click **Use Current Location** and click **Next** at the bottom of the screen
- Customer will need to give location permission

Step 4: Service

- Customer can choose a service, then click **Continue** at the bottom of the screen.
- They can see service description by clicking on **View Description**.
- To see Ingredients need to click on **View Ingredient**.

Step 5: SP Time Slots

- This page will display SP's available timing for the booking. The Customer will select the date & time and click **Continue**.
- The app will prompt the Customer to **Sign In/ Create an Account**,
- They may add any notes of any special requirement they may need, and then fill out a Medical Consent Form if they don't already have one on file.

Demo!

How to Utilize the QR Feature

You can download your free QR code and display it on your storefront, marketing and merch. With one quick scan using a smartphone camera, your customers are directed straight to your booking page.

[Marketing webinar on date]

Business Admins

- Businesses can have their own booking link and QR code which Admin's can share with clients
- It will allow them to book directly with your service providers.

HYDREIGHT

The logo for Hydrecht features the word "HYDREIGHT" in a bold, dark blue, sans-serif font. The letter "Y" is stylized, with a grey rectangular shape above it containing a blue liquid level and a white vertical line, resembling a hydrometer or a water level indicator.
